EXPERIENCE

SOFTWARE DEVELOPER, MC1 Tecnologia da Informação Jul/2015 - Present

Full-time position as a software developer. My main experiences have been working on large scale projects, mainly involving the Android platform. I have worked on projects from the early stages of planning and requirements extraction, through its development, testing and validation cycles. It allowed me to experience not only the technical side of software development, but also the managerial side of it.

INTERN, MC1 Tecnologia da Informação Jul/2014 - Jul/2015

Internship in software development, working mainly with the .NET platform (C#). I also worked on the migration of an existing application from Windows Phone to Android. I was also responsible for the research on the use of SonarQube to evaluate code quality and how it would fit into the company's development workflow.

INTERN, School of Computing, University of Dundee (UK) May/2013 - Aug/2013

Working on Dr Wendy Moncur's project regarding Terms of Service of ISP and Online Services. The goal of the project was to gather Terms of Service and automatically highlight important information regarding content ownership and its handling upon users' death. I worked on the development of a web crawler, using Java and MongoDB, the configuration and integration of an Apache Solr instance to provide textual search and the development of an end-user interface using Bootstrap.

ENGLISH TEACHER, CCAA Campinas Jul/2010 - Dec/2012, Jan/2014 - Dec/2015

ENGLISH TEACHER, CCAA Suzano Jul/2009 - Dec/2009
